Subject: Heads up: More Factsheets for Administrator's Press Conference need to be developed

We just heard from OCFO. ORD has been assigned additional factsheets on endocrine disruptors (EDCs), CompTox (either rolled into 'TSCA Support' or as a separate sheet) and IRIS.

OPARM will have drafts for EDCs and Comp Tox by Monday, January 29th for IOAA review. However, we are anticipating that the IRIS factsheet will take a little longer to develop.

Subject: Factsheets for Administrator's Press Conference - Please review by 3PM Monday
January 29th

OCFO has requested factsheets in preparation for the Administrator's Press Conference that will occur on February 12th related to the release of the FY 2019 President's Budget. We have no further details related to that press conference at this time. OCFO has asked that we update the factsheets that we sent them last year. We do not know if they will be requesting others.

OPARM has updated the attached factsheets and will verify the resource levels on Monday where appropriate. Please review the factsheets by 3 PM Monday January 29th as they are due to OCFO by January 30th.

We will keep you informed as to other details related to the press conference as they become available.

Thank you.
